### **About UroGen Pharma Ltd.**

UroGen Pharma is a clinical stage biopharmaceutical company developing advanced non-surgical treatments to address unmet needs in the field of urology, with a focus on uro-oncology. The Company has developed RTGel, a proprietary sustained release, hydrogel-based formulation for potentially improving the efficacy and safety profiles of existing drugs. UroGen Pharma's sustained release technology is designed to enable longer exposure of the urinary tract tissue to medications, making local therapy a potentially more effective treatment option. UroGen Pharma's lead product candidates, MitoGel and VesiGel, are designed to potentially remove tumors by non-surgical means and to treat several forms of non-muscle invasive urothelial cancer, including low-grade UTUC and bladder cancer. Moreover, UroGen Pharma has recently completed a worldwide licensing agreement with Allergan Pharmaceuticals International Limited, a wholly owned subsidiary of Allergan plc, for the use of RTGel with neurotoxins for the treatment of overactive bladder and related

conditions. UroGen Pharma is headquartered in Israel and also maintains a corporate office in New York City.

### **Forward Looking Statements**

This press release contains forward-looking statements, including with respect to the expected closing of the initial public offering. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including that the conditions to the closing of the initial public offering are not satisfied. UroGen Pharma undertakes no obligation to update any such forward-looking statements after the date hereof to conform to actual results or changes in expectations.
